### Enterprise Security Challenges

**Complex Security Threats:** Expanding attack surface exposes enterprises to rising risks from ransomware, insider threats and phishing.

**Insufficient Threat Detection and Response:** Many organisations lack advanced capabilities to detect and respond to threats in real time, leading to extended breach resolution timelines.

**Non-Compliant Devices & Access Risks:** Enforcing consistent security policies across hybrid and multi-device environments remains a significant challenge, increasing compliance gaps and potential breaches.

### Transformative Actions for IT Partners/ MSPs

- ✓ **Comprehensive Threat Protection:** Deploy Microsoft Defender and Entra ID Plan 2 to safeguard identities and endpoints, providing a unified approach to combat emerging threats.
- ✓ **Proactive Security Management:** Harness AI and automation to accelerate threat detection and response, providing efficient protection.
- ✓ **Streamline Compliance and Governance:** Implement robust access controls and effortlessly comply with regulatory standards
